

DueNorth All Purpose Oversized Winter Traction Aids

"Since receiving my pair of DueNorth All Purpose Oversized, I use them every time I go out ice fishing. They are fantastic. The people I have fished with; outdoor writers, TV hosts and friends; thought they were easy to use and you really GOT A GRIP on the ice but still had the comfort of your boots, instead of the bulky arch breaking ice cleat that straps on or slides on your boot. I have now incorporated them into my slide presentation and articles I write."

Mark Martin

Professional Fisherman

"I wear my DueNorth All Purpose Oversized for stream fishing. They are easy to put on and work great for walking on moss covered rocks. They are lightweight and you can carry them right in your vest pocket. You have a great idea, I've been looking for something like this for ten years. Competitive products are too cumbersome, they are hard to put on and off."
