

Sure Comfort®

"I have relied on the Sure Comfort® Halter Half Sole for years. Thanks for making such a great product. As you probably know, there is nothing else like it on the market (removable, washable). Everything else comes with permanent adhesive, which is not convenient at all, especially for those of us who are really hard on insoles and like to be able to take them out and wash or replace them! The dancers of the world love you. Thanks."

Ellen Fried
Dancer

"Just want to let you know how much I appreciate Sure Comfort® Halters. I have a narrow heel and flat feet, so I have a problem with my feet sliding forward in high heels. Sure Comfort halters help solve my problem. When my daughter got married, I was concerned about how I would carry out my duties as I had to do a lot of walking and didn't want my shoes to slide up and down on my heels. I discovered your halters in time for the wedding and they were just what I needed. Your halters gave me the assurance of walking without the sliding, and the freedom to focus on what I needed to do. Now every time I go out in high heels, Sure Comfort Halters go with me."

Mrs. Odell Smith

"Thank you for Sure Comfort® Cushions. They are just what I need. I wear them all day. They are so comfortable and absorb the pressure and shock in the most tender spots. My feet thank you also."

Gaynell Uzzell
